

Environmental Claims Management

High Net Worth Property Claims

When Experience Matters

Claims such as escape of oil from leaking oil tanks, failed pipework, leaking boilers or Agas can be very disruptive and distressing when property becomes damaged, sometimes to the extent where it becomes uninhabitable.

Our highly experienced UK wide team of consultants bring calm, reassurance and clear direction to often fraught situations.

We understand the need to provide the highest level of service to your most important clients.

"The people I dealt with were really wonderful. They were attentive, caring, professional and efficient"

Environmental Claims - High Net Worth

We are the only environmental consultancy specifically created to deal with insurance claims.

We have successfully handled over 4000 environmental damage claims since 2002.

We are acutely aware of the attention to detail required by High Net Worth clients and have considerable experience of work in this specialist area.

Other Benefits:

- ✦ Swift investigation and management of damage
- ✦ Realistic and cost effective solutions
- ✦ Protection of brand and reputation
- ✦ Highly qualified, experienced staff
- ✦ Effective liaison with regulators
- ✦ Experience of environmental damage involving listed buildings, sites of historical interest and dealing with internationally known celebrities.
- ✦ In house ecology and biodiversity advice

Please contact us if we can be of any further help. All the services we provide follow recommended Codes of Practice and national guidance.

Case Study: High Net Worth Property - Escape of Oil

Following the failure of 4500 litre conjoined oil storage tanks in the basement of a mansion we were instructed by insurers to establish the extent of the damage and recommend appropriate remediation.

We project managed the removal of contamination, including resurfacing of the basement and repairs to the underground swimming pool with minimum disruption to the property owner.
